

DISPLAY SYSTEM

THE TARIFOLD REFERENCE REDESIGNED FOR GREATER EFFICIENCY

Developed 40 years ago, the TARIFOLD display system has sold millions of copies in all shapes. Backed by its expertise and site analysis, TARIFOLD PRO offers a new system that perfectly meets the needs of modern industry.

Installed with the T-Clip on the aluminium profiles or with screws and dowels everywhere, this new patented presentation system was designed to be easier to handle, more practical and more efficient.

A DOCUMENT PRESENTATION SYSTEM WITH MAGNETISATION

Thanks to its powerful magnets, the pivoting pockets are mounted on the support in the blink of an eye. The documents can be handled quickly and easily. The order of pockets can be changed in an instant, without removing the pockets.

It comes with 5 to 10 easily interchangeable pockets. The presentation system is sold as spares for greater flexibility.

EASY LOAD POCKET WITH CORNER CLOSURE

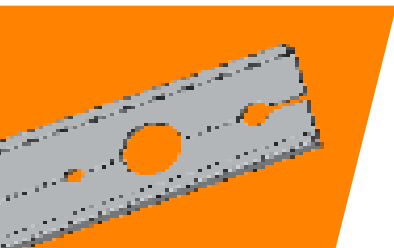

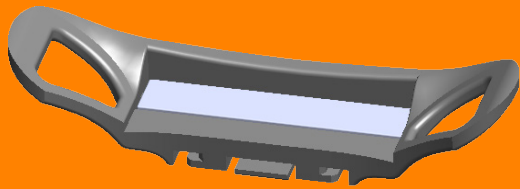

A polypropylene pocket for protecting your documents from dust, splashes and wear. A sturdy frame in steel wire for greater solidity. A corner closure system for quickly and easily inserting documents. Available in 4 colours for thematising the information.
(■ black, ■ red, ■ blue, ■ green)

AN EFFICIENT POCKET-LOCK

The pocket lock works to lock the pockets to the support for greater system stability.

CLASSIC OR T-CLIP FIXING

Thanks to the T-Clip, two 15mm holes ensure fixing to the majority of aluminium profiles, the system is centered on the profile. A pre-drilling for fixing with screws and dowels (not provided) on all types of materials.
